- Broke monolithic architecture into standalone micro-services
- Tech Stack: Laravel, Node.js, React, PHP, MongoDB, MySQL,AWS

EDUCATION

B.Tech, Computer Science
The Northcap University

📅 July 2018 – June 2022   📍 Gurugram, HR

12th, PCM
Modern Public School

📅 March 2017 – March 2018   📍 Bhiwadi, RJ

- 80 %

10th
Modern Public School

📅 April 2015 – March 2016   📍 Bhiwadi, RJ

- 9.4 CGPA

ACHIEVEMENTS

🏆 **Winners | EY GDS Hackpions 2021**
Winners of the problem statement in EY GDS Hackpions 2021 organised by HackerEarth and EY

📈 **Misc. Hackathons**
Secured top ranks in various other hackathons.

🏆 **3 Stars | Leetcode** ⧉
Earned 3 stars at competitive programming platform

SKILLS

Machine Learning   Deep Learning   Firebase
MS Azure   Heroku   Flask   Python
C/C++   NLP   Node.JS   SQL   PHP
Javascript   Postman   Laravel   MongoDB
Data Structures and Algorithms   OOPS
Agile   Nest.js   AWS   MVC   REDIS

PROJECTS

Intel Information Risk Analyzer ⧉

- A web-app interface, to upload multiple pdf files or emails and produce output tables with a count of — input files, risk type, source type and table of the identified countries with their count — for each header.
- The dashboard shows the country's risk profile, based on different risk categories. It also show's an early warning signal, historical trend and impact analyses, and recommend probable actions based on the event type.
- Tech Stack Used – Python, Flask, Gensim, Nltk, Heroku, MySQL

Codigo.io ⧉

- Created and developed codigo.io, an innovative online code editor with a range of programming languages, including PHP, C++, JavaScript, C, Ruby, and more.
- Implemented real-time collaboration rooms that allow users to work collaboratively on code in real-time and communicate with collaborators through chat functionality.
- Designed and implemented a user-friendly interface that enables users to easily save and upload their code, making it easily accessible and editable from anywhere with an internet connection.
- Tech Stack Utilized a robust technology stack including AdonisJS, PHP, Socket.io, Node.js, and React to deliver a fast and responsive user interface and a secure backend.

STRENGTHS

Hard-working

Persuasive

Quick learner
